

Tork® Intuition II Dispensing System

Tork® Intuition II

Elegant and Hygienic, A Perfect Choice for Any Upscale Washroom Featuring:

- State-of-the-art automatic roll towel dispensing
- A sleek new design matching the entire Tork® family of products
- Ease of installation – can be recessed into wall for ADA compliance
- No-touch operation, allowing towels to be enclosed until needed
- No towel waste, with controlled consumption and stub roll feature

Tork® Intuition II

Stylish Look

- Sleek design and curved lines characteristic of Tork family of dispensers
- Window viewing
- Enhancement of restroom aesthetics
- Impressive upscale appearance

Versatile Installation

- Direct mounting to wall or within a recessed compartment
- Numerous backplate mounting slots that fit most any pattern

Ultimate Hygiene

- Patrons touch only their towel – nothing more
- Towel enclosed until needed
- Virtual elimination of all cross-contamination risk

Waste Reduction

- Adjustable towel length to control consumption
- Adjustable time delay to control frequency of dispensing
- Stub roll compartment for full paper utilization

Tork Toweling

- Wide selection of paper, from natural to premium cloth-like
- Versatile roll towels suitable for both Tork Intuition II and TorkMatic II
- Smart solution – one paper SKU – for mechanical and automatic hands-free Tork dispensers

ADA Compliance

- Placement less than 4 inches from wall, due to recessed wall-mount capability

Panel available for recessed mounting needs.

ADA Requirements

The Americans with Disabilities Act (ADA) prohibits discrimination in a number of ways on the basis of disability. The ADA also establishes design criteria to ensure public facilities are wheelchair-accessible. The recessed wall mount capability of the Tork Intuition II allows for compliance with ADA towel dispenser requirements.

“Customers are impressed by the sleek design and upscale image of the Tork Intuition II dispenser, but most of all, they like the savings.”

Suzann Allen, Hillyard Distributors sales representative, Redwood City, CA

No levers. No touch dispensing. No hygiene worries.

Tork Intuition II

uses a patented microchip sensor to detect the presence of a hand, then delivers a controlled length of Tork roll toweling. The controlled towel length leads to less waste, reduced need for refills, and increased savings in supply and labor expenses.

In addition, towels remain inside the dispenser until they are needed. Patrons touch only a single towel – and avoid the risk of cross-contamination. With a wide range of mounting options, Tork Intuition II is ideal for use in office buildings, healthcare facilities and foodservice establishments.

Looking to enhance your washroom appearance while reducing paper waste and maintenance costs?

Tork Intuition II is the perfect choice.

Tork Intuition II

On the Inside

Recessed Wall-Mount Capability

Recessed wall mount capability allows for ADA compliance.

Durable Cabinet

High-impact plastic is durable enough to withstand the most rigorous use – and is simple to clean.

Business Card Holder

Supplier contact information for refills or questions is conveniently displayed.

Stub Roll Feature

The stub roll feature allows for the entire roll to be used.

Conformance to HACCP Guidelines

Towels are fully enclosed, leaving no paper tail exposed to germs. Because the dispenser has no cranks or levers, patrons touch only their towel, thus minimizing cross-contamination.

Smaller Footprint

Less installation space is required than for the original Tork Intuition and competitive models, allowing for more installation options.

Upscale Design

Curved lines and window viewing are representative of the classic Tork styling.

Versatile Installation

Numerous backplate mounting slots fit most any pattern.

Bubble Level Indicator

Built-in level provides instant feedback to ensure dispenser is mounted squarely on the wall.

Controlled Towel Use

Washroom operators determine how much towel is dispensed, from approximately 8 inches to 47 inches (or 20 to 120 centimeters) and can use a built-in adjustment tool. Adjustable sensor time delay helps minimize overconsumption.

Long Battery Life

Batteries are within easy reach for simple loading – and provide up to 34,000 hand dries! Low battery light indicates when a battery needs to be replaced.

Patented Sensor

Patented state-of-the-art microchip sensor detects the presence of a patron's hand.

Reliability

Non-corrosive stainless-steel cutting blades and rollers offer dependability. Dispenser contains no wooden components that could swell or warp.

Reduced Maintenance Time

Easy-to-load, high-capacity rolls conserve maintenance time. See-through window tells washroom operators when it is time to refill.

Premium Quality Towels

Three levels of quality towels are available for Tork Intuition II:

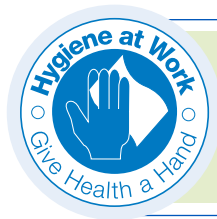

- **Plus:** Premium quick-absorbing, thicker paper towel with improved softness and strength that feels like cloth. Ideal for Class-A office buildings and upscale dining facilities.
- **Standard:** Absorbent, high-quality white paper towel for everyday use.
- **Basic:** Traditional, high-quality natural paper towel for everyday use.

Choose the roll towel that best meets your facility's needs.

Tork Intuition II

delivers a controlled length of paper toweling when its unique microchip sensor detects the presence of a patron's hand.

The ultimate in hygienic towel dispensing. This touch-free design keeps the towel enclosed within the dispenser until needed.

Tork Intuition II

Tork Matic II

Use the Same Towel for Both Systems

Tork Intuition II and Tork Matic II dispensing systems use the same type of paper toweling rolls.
